NEWSPAPER DECISION.

We publish the following for the benefit of those who do not understand the law in such cases:

1. Any person who takes a paper regularly from the postoffice, whether directed in his name or another's, or whether he has subscribed or not—is responsible for payment.

2. If a person orders his paper discontinued; he must pay all arrears, or the publishers may continue to send it until payment is made, and then collect the whole amount whether the paper is taken from the office or not.

3. The courts have decided that refusing to take newspapers and periodicals from the postoffice or removing and leaving them uncollected for, is prima facie evidence of intentional fraud.

Save your money and buy your books and stationery at the P. O. Bookstore.

The Gale Plover takes them all down in hard ground.

The match game of base ball between the Plugs and Knoxville Reds will take place some time next week.

Fortify the body against disease by purifying the blood with Dr. Bull's Blood Mixture. Thus fortified, you will not be attacked by sickness.

Bradley county cast 2,018 votes at the election last Thursday. This is the largest ever polled in the county. Who says we are not improving?

All the candidates have returned from "Salt river" except Northrup and Greenlee. They went up the river so far that they haven't had time to get back yet.

We told the Democrats all the time that Hoyl would take enough votes of Northrup to defeat the latter. Now they see we were right about it.

Trewhitt's majorities in the ten counties is 3,103. When we estimated it at 2,000 weeks before last we were laughed at. Reader, the truth is, we knew how much it would be all the time, but was just ashamed to tell.

Elsewhere will be found a call for a Republican convention, to meet in this place Saturday, August 17th, for the purpose of selecting delegates to the State Convention, which meets in Nashville Aug. 22d.

H. J. Springfield, of Tyners Station, has been elected Sheriff of Hamilton county. He was one of the first men that ever subscribed for the HERALD in that section and of course it congratulates him on his success.

For the Legislature.

The HERALD stands ready to announce any one as a candidate for the Legislature for the small sum of \$5.00. Now is your chance, come this way.

Jo. Hicks has 664 votes in Bradley county that belong to him, and when he can get out enough candidates to divide up the other votes he is happy. Jo. says he is going to have the tenth district made into a State so he can run for Governor.

David Norton, son of A. B. Norton, ex-Sheriff of this county, was killed at Chattanooga last Thursday by a negro man. It seems that Norton was drinking and got into a dispute with a crowd of negroes and while fighting one of them another stepped up and cut Norton's throat with a razor.

PERSONAL.—Capt. J. C. Morgan, of the Postoffice Department, is spending a few weeks with his family in this place.

Mr. John Bower, of Water Valley, Miss., is spending a few weeks here among his many friends and relatives.

Attention of the public is called to the fact that Dick Kerr has now in connection with his fresh meat market a full supply of family groceries, such as Bacon, Meat, Flour, Tobacco, both smoking and chewing—Candies, Crackers, cakes, and in fact every thing usually kept in a family grocery store.

He further states to the public that he has fresh beef every day killed that morning. He solicits a liberal share of patronage.

Hon. Hall Osment, one of the leading Democrats of this county, made a motion in the Democratic convention last Monday to instruct the delegates to the State Convention to vote for John H. Savage for Governor; but the chair ruled him out of order and put a motion to adjourn. It was evident that three-fourths of the crowd was for Savage, but the convention feared such action.

We notice an article in the Chattanooga Independent setting forth the "Salt river" crew and styling Mr. Mayfield, "August Belmont Mayfield," &c. A decent sense of propriety would forbid the continuance of such electioneering tales; they were low enough and sufficiently repulsive to any sense of honor during the canvass, and now that it is over they ought to stop. Mr. Mayfield does not own a bond nor never did.

The reason why the tenth district voted so strong for Jo. Hicks, is—according to Tom Prater—because the neighbors out there don't want anything to do with him. They say when he is at home he is continually in a row with all his neighbors and dogs and keeps up such a fuss that they are determined to keep him off their property to the death.

Dissolution Notice.

The partnership between Stonewall Rogers and myself is this day dissolved. I will carry on the news business in the future at Hardedge's clothing store.

Aug. 2nd, 1878. ED HARTDGE.

Be sure and not forget when you go to books and stationery to go to the P. O. Bookstore at the postoffice—only bookstore in the city. School books of all kinds as cheap as can be bought in Knoxville or Chattanooga.

Prof. Gwin's school at Limestone numbers now seventy-eight students and still on the increase. If John can't build up a good school no one need try.

The "wind-mill" kindly informed its readers week before last that Dan. Trewhitt could not be elected. Wonder what it charges for its wisdom? Send around your bill.

Died—Aug. 3, 1878—Mrs. Susan Coulter, in the eightieth year of her age.

Mrs. Coulter was one of the oldest ladies in Cleveland and was esteemed by all who knew her. She leaves several relatives and many friends to mourn her departure from this earth.

Spelling Books only 10 cents at the Post office Book Store.

That "Jim county" tale that was told on Trewhitt is what injured him so in this county. Had that been circulated on him two weeks earlier, his majority would have been one thousand instead of five hundred and ninety-seven.

We have no inclination whatever to crow over Mr. Hoyl's defeat. We advocated Mr. Trewhitt's claim because we thought him worthy of the position and because we honestly thought Mr. Hoyl had held the position long enough for any one man to have such an office.

It is a sad sight to see an intoxicated person on the street. How much more so to see a dull and sickly baby rendered so by the use of dangerous opiates? Dr. Bull's Baby Syrup contains nothing injurious and may be given to the most delicate baby. Price 25 cents.

If the Republicans had stood true to their colors Milburn would have been elected Attorney General, as it was Spears run behind his ticket at his home and everywhere else but Meigs swapped off Milburn for Trewhitt and Hoyl.

John C. Burch of Hobbs comptroller-ship notoriously refused to go into the Democratic primary election of Davidson county as a candidate for Governor. We hope the Democracy will nominate some honest man and beat him.

R. M. Bishop & Co., of Cincinnati, the largest Grocery House in the West, has failed. R. M. Bishop, of that firm, is Governor of Ohio.

The P. O. Bookstore has a full line of all kinds of Books, Slates, Ink, Paper, Pencils, and everything usually kept in a first-class bookstore. Cheap for cash.

OBITUARY.

DIED, on Saturday, the 27th inst., SAMUEL, infant son of B. H. & E. J. Popham, aged 19 months.

Thus another home has been darkened by the shadow of death; another form has passed away and we are called to mourn the dear departed. But oh! it was only an infant but severed from its parent stem, and transplanted love, and should we mourn when we know that our loss is its gain; for Jesus hath said, "Of such is the kingdom of Heaven." Looking above for consolation, we would bow ourselves in submission to His will, knowing that all things work together for good to those that love Him.

Ours the loss and not our darling; Ours the pain and not his joy; Ours the mourning and the weeping, His the bliss without alloy.

A. L. B.

As there is considerable talk about the National Bank of this place passing out the Mexican dollars and refusing to take them back without a discount, we took it upon ourselves yesterday to enquire of Mr. Parker just how it was. He informed us that the Bank had received a few dollars of the Mexican coin several months ago and had used them when they were passed and taken by everybody dollar for dollar. A couple of merchantile firms in this place brought a majority of these dollars here, but they don't discount them for goods as we understand. We make this statement in justice to the Bank. The Bank should not have to bear the blame of everything.

Mr. Parker further informed us that the Bank had ordered an amount of the Mexican dollars which they would sell out at just what they cost.

In this issue will be found an advertisement of Chestnut High School, which opened Monday last under the supervision of Prof. J. G. Jones. This Institution last year enrolled over one hundred students, and the indications are that at this session the number will be largely increased. Mr. Jones is a deserving young man and an excellent teacher, and we wish him and the school much success.

One of our country cousins stepped in Tuesday, and on being asked if there was anything we could do for him, he said: "Wal, I believe not; I was just lookin' fur Mr. —. He said he would be here to have his tooth pulled." We at once referred him to Doc. Will. Carson, and told him that was the shop he was hunting. We now give notice that we don't anybody else to take us for Bill Carson or this office for a tooth carpenter shop. If they do they will hear a gun go loose and a dog holler.

Ducktown affairs are unsettled yet, no one either here or there seems to know what is to be the result of the failure of the company. All hope for the better but no one knows as yet for certain what will be done.

The Defeat of Isaac Lowe.

The defeat of Mr. Lowe is not really a surprise to a great many. There is considerable feeling against him in this county on account of his past political acts. Although he was nominated by the Republicans this time, he could not get near the support of the party. Two years ago he refused to come into the Republican convention and chose to run an independent race thus causing the Republican nominees to be defeated. For this it seems that he has been made to suffer. The leading Republicans throughout the county voted and worked against him on that account. Then again he depended upon Democracy to help him—which they never do when they can do anything else. We supported Mr. Lowe and would like to have seen him elected, but there is no use in crying over spilled milk.

The Election in Polk County.

The following are the county officers elected in Polk county:

Sheriff, I. B. Brock.

Circuit Clerk, Jas. H. Bible.

County Clerk, F. E. Lindner.

Trustee, G. B. Smith.

Register, W. W. Doid.

Information Wanted.

We have heard of the editor of the Banner in conversation wanting to know why certain Democrats "went back" on Mayfield. If it is not out of place we would like to know why the editor of the Banner talked for Mayfield on the streets and refused to support him through his paper. Surely he was not trying to play a two-faced game in order to get legal advertising from whichever was elected. We would also like to know how many obligations the Democrats of this district are under to the Banner. If it ever does us anything but harm we have never heard of it.

Dem.

MARY MEDILL, a comely white girl sixteen, was on Thursday last stripped to the waist, tied to the Elizabeth (Va.) Court House whipping post and given twenty-five lashes with a raw-hide, the master of the cat-o'-nines being a negro constable, big, burly and accustomed to hard knocks. The girl had stolen a pair of shoes. The constable hardly touched in his strokes, but it is said that all concerned in the whipping were miserable at the time, only executing the law under protest. Whether the girl was white or black, the spectacle must have been anything but edifying. The whipping post is a relic of barbarism that finds favor only in Delaware and Virginia.

After the Election.

The election excitement is over at last and the people will have an opportunity to look around them and see what has been neglected during the time they have been talking politics and shaking hands with candidates. It will be strange if it is not found that a few doses of Hart's Anti-billions Discovery or Hart's Great relief are needed.

Newspaper Business.

An exchange says: "We suppose many people think that the newspaper men are persistent duns. Let a farmer place himself in a similar position and see if he would not do the same. Suppose he raised one thousand bushels of wheat, and his neighbor should come and buy a bushel, and the price was a matter of only two dollars or less, and the neighbor says, 'I will hand you the amount in a few days.' As the farmer did not want to be small about the matter, he says, 'All right,' and the man leaves with the wheat. Another comes in the same way, until the thousand bushels of wheat are trusted out to one thousand different persons, and not one of the persons concerns himself about it, for it is a small amount he owes the farmer, and of course that would not help him any. He does not realize that the farmer has fritted away all his large crop of wheat and that its value is due him in a thousand little dribbles, and that he is especially embarrassed because his debtors treat it as a small matter. But if all would pay him promptly, which they could do as well as not, it would be a large amount to the farmer, and enable him to carry on his business without difficulty. The above comparison is too true of the difficulties that the newspaper man has to contend with."
